## PROFESSIONAL SUMMARY

Front-End Developer with strong hands-on skills developing scalable web applications using modern technologies, including React, Node.js. Successfully contributed to four diverse projects across industries like EdTech, CRM systems, agriculture, and travel, improving performance and user experience. Proficient in front-end frameworks such as React-Bootstrap and Material UI, as well as back-end frameworks like Node.js and GraphQL. Eager to utilize my full-stack development skills to build efficient, user-focused solutions and contribute to the success of innovative projects.

## PROJECTS

### Cool Chat (Real-Time Chat Application) <https://cool-chat-wine.vercel.app/>

- & Built a real-time chat application with secure user authentication using Clerk.
- & Implemented login, registration, and protected routes to ensure data privacy.
- & Integrated MongoDB for storing users and chat messages, ensuring data persistence and efficient retrieval.
- & Focused on component reusability and clean UI architecture to enhance maintainability and scalability.
- & Collaborated with cross-functional teams to design, test, and deploy features, ensuring user-friendly experiences.
- & Improved platform scalability and performance by optimizing front-end workflow.

### ShowTime-OTT Platform (Admin & User Modules) <https://showtime-one.vercel.app/>

- & **Tech Stack:** Next.js, React, HTML5, Bootstrap, Material UI, Tailwind CSS, MongoDB, Cloudinary
- & Developed a full-stack OTT platform with **two separate modules: Admin and User.**
- & Built an **Admin Dashboard** to upload, edit, and delete **movies, web series, podcasts, and Bigg Boss content.**
- & Implemented **category-based analytics using charts** to visualize movie data.
- & Integrated **MongoDB** for storing structured digital data such as movies, categories, and metadata.
- & Used **Cloudinary** for secure storage and streaming of media files including **posters and video content.**
- & Developed the **User Module (ShowTime)** where users can browse and watch movies seamlessly.
- & Implemented advanced filtering options based on **language and release date.**
- & Served content from multiple industries including **Hollywood, Bollywood, and Tollywood.**
- & Designed a responsive and modern UI using **Bootstrap, Material UI, and Tailwind CSS.**
- & Followed modular architecture and reusable component design for scalability.

## TECHNICAL SKILLS

**Front-end Technologies:** HTML5, CSS3, JavaScript, React Hooks, Material-UI, Bootstrap, React-Bootstrap, Next.js

**Back-end Technologies:** Node.js

**Database:** MongoDB

**Frameworks :** React.js

**Tools and Platforms:** Git, Github

**State Management:** Redux

## EDUCATION

Chaitanya Degree College, Krishana University

2018 - 2023

**Bachelor of Science Computer Science (BSc), Computer Science GPA 7.67 / 10**

Dvr Junior College, Board Of Intermediate

2016 - 2018

**Intermediate, Math, Physics, and Chemistry (MPC) GPA 7.09 / 10**

Pavan Sbhodaya VNHS, Nandigama, Board Of Secondary Education

2015 - 2016

**Secondary School Certificate, General Education GPA 8.3 / 10**

## LANGUAGES

English      Hindi      Telugu
